Dear Hiring Manager:

With a passion in programming since school and I was taking courses in website development. That's why I am excited to apply for this position. I believe I am a great candidate because I have such necessary skills as excellent communication skills, design, knowledge of HTML, CSS, SCSS, SASS, JavaScript and much more. I am interested in working for your company because I want to be a part of such a professional team.

After taking a website development course in 2022 and gaining new skills such as HTML, CSS, JavaScript, and using tools like Bootstrap 5 and JQuery, I realized that I needed to learn more and entered Centennial College. I get great satisfaction from participating in group projects and creating something new. When creating projects, we use tools such as Jira, Trello, and many others. Moreover, we use different approaches for different projects, for example, the Agile approach. I have already received many new skills that will help me create websites.

In addition, I study languages such as C# and Java. Over the course of the semester, my team made an app similar to "To Do" or "Power Planner" that helps students manage their courses and grades. I know that the best candidate is detail-oriented, reliable, attentive, and organized, and I can say that I have all these characteristics. I am always ready to help and find the best way to solve the problem.

It would be a great honour and pleasure for me to be a part of your professional, dedicated, and determined team, as I believe that we share the same values: honesty, integrity, efficiency, creativity, and passion for providing the best services. I am sure that I would make a great contribution to your company.

I look forward to your response and the opportunity to discuss my qualifications. I can be reached at 437-438-23-09. Thank you in advance for your consideration.

Sincerely,

Dmitrii Mitin
